

Key Responsibilities – Spray Patch Truck Operators, The Patchmaster Ltd.

About the position:

Reporting to the Foreman at The Patchmaster Limited, our Spray Patch Truck Operators work as a team with our Labourers. The Spray Patch Truck Operator's role is to apply spray patching and provide direct communication to labourers for the packing of spray patches to ensure a uniform and defect free application of spray patches.

As part of this position, you will be operating a spray patch truck in a general road construction environment. Given our short season you must have a willingness to work 12 hours shifts that may include nights, holidays, and weekends.

We work in a dynamic and ever-changing environment, to ensure the safety of our people and the public. You will arrive fit for duty with adequate time before your shift to be prepared for work.

You will be responsible for the safe operation of our spray patching equipment keeping open and clear communication with labourers, flaggers and compactor drivers who will be part of your crew. You may be responsible for flagging/traffic management, and operation of a compactor as part of this role as assigned.

Do you want to be part of an amazing team, work hard, have fun, and know you are working in a team environment where your safety is paramount? Then The Patchmaster Ltd is for you!

Spray Truck Operator

Requirements

- Safe operation of a spray patch truck (Class 3 or Class 5 license with air endorsement required), abiding by all traffic and site-specific safety protocol.
